## Simulation Centre

The Sim Centre offers purpose-built training rooms, and state-of-the-art equipment such as simulation manikins capable of reproducing clinical symptoms, allowing us to replicate a comprehensive range of scenarios.

Our facilities have allowed us to provide high-quality simulation training since 2012, enhanced further by the recent upgrades at the Freeman Education Centre.

### Control Room

The Simulation Centre control room is situated adjacent to the clinical room and features a two-way mirror so that our faculty and technicians can oversee the simulation training.

Each session can be captured on video and can be streamed via a live feed to the adjacent training rooms or online virtual rooms.

This enables a detailed evaluation of the scenario so that learning can be shared with all participants simultaneously.

## Clinical Rooms

The Clinical Rooms can be used as a ward, theatre or recovery area and can easily house two beds.

They benefit from:

- two ceiling mounted cameras and one mobile camera
- four ceiling mounted microphones
- beds that can be moved out to allow for a flexible training space
